ABOUT ME

Dynamic and solutions-driven, I leverage my full-stack development experience and my ability to solve complex problems quickly to design high-performing, intuitive applications. A strong communicator, rigorous, and motivated by challenges, I am ready to fully commit myself to your team.

TECHNOLOGIES

- **Front-end:** React.js, Next.js
- **API:** Express.js, Laravel
- **Mobile:** React Native, Flutter
- **Databases:** MySQL, Oracle
- **Data Mining:** Pandas, Power BI
- **UI/UX Design:** Figma
- **CMS:** WordPress (Elementor)
- **Tools:** Git, GitHub, Vercel, Docker

SOFT SKILLS

Adaptability, teamwork, creativity, time management, communication.

CERTIFICATIONS

Institut Français:

- TCF | B2 (overall score: 473)

Cisco Networking Academy:

- English For IT 1 & 2
- JavaScript Essentials 1 & 2
- Python Essentials 1 & 2

LANGUAGES

- **Arabic** — Native language
- **French** — Excellent proficiency
- **English** — Good proficiency

INTERESTS

- Football & team sports
- Music & audio culture
- Fitness, strength training & wellness
- Travel & cultural discovery

EDUCATION

SUP2I - School of Engineering and Innovation

2025-2026 | Bachelor's Degree in Computer Science Development

IFIAG - Institute of Applied Computer Science and Management Training

2023-2025 | Specialized Technician Diploma in Computer Science Development

Lycée El Baroudi

2021-2022 | Baccalaureate in Physical Sciences - BIOF

EXPERIENCE

Collaboration Contract - Alvon Digital Group

2026 (Present)

Developed and maintained mobile applications, designed technical architecture and optimized performance, and contributed to strategic product decisions.

Graduation Internship - Alvon Digital Group

2026 (2 months)

Designed and built a TCF exam preparation platform (MonPasSTCF): full-stack architecture (Express.js, React Native, Next.js), AI integration (Groq), real-time social features, gamification, and an admin dashboard.

Internship - Adam Adventure Tours & Tourism

2025 (1 month)

Designed and fully built a showcase website: requirements analysis, technology selection, graphic design, Next.js integration, deployment on Vercel, and ongoing maintenance.

Graduation Internship - MB Way

2025 (2 months)

Backend developer for the Quick Stay application (Laravel); created the visual identity, including the logo and complete brand guidelines.

PROJECTS

MonPasSTCF | Built a mobile app for TCF exam preparation powered by AI (React Native, Next.js, Express.js) during my internship at Alvon Digital Group.

Breezoria | Built a conversion-focused e-commerce website with Next.js and Tailwind CSS.

ZacaStore | Built an online store with catalog and cart functionality using Next.js and Tailwind CSS.

AATT | Built a showcase website for Adam Adventure Tours (Next.js, React, SEO, Vercel) during my internship at Adam Adventure Tours & Tourism.

Café Dupond | Built a showcase website for Café Dupond with React + Vite and Tailwind CSS, deployed on Vercel.
